Press Release

ARCO ANNOUNCEMENT: September 15, 2010

ARCO, INC. www.arcoinc.com, the Global Electronic Components distributor and Supply Chain Services Company based in Mahwah, NJ is pleased to announce that Giantec Semiconductor has appointed ARCO as a global franchised distributor for its portfolio of EEPROM, Smart Card, and Power Management products.

ARCO's strategic focus is in Volatile & Non-Volatile memory, Optoelectronic, Solid State Lighting, and LED, technologies. Through our network of strategic locations in the USA, Germany, Hong Kong, and China, we offer our customers access to a global network of leading suppliers with state of the art technology solutions. ARCO, INC. invites you to visit our website at www.arcoinc.com

"We are pleased to expand our memory and semiconductor product offering to include Giantec Semiconductor. The addition of the Giantec product line enhances ARCO's comprehensive portfolio of memory and semiconductor solutions and reinforces ARCO's commitment to provide state of the art and legacy product solutions to our customers worldwide" said Rick Kapoor, ARCO president and co-founder.

Giantec Semiconductor, Inc. (Giantec) is a fabless semiconductor company that designs, manufactures, and markets high-performance semiconductor products. The products include EEPROM, Smart Card, and analog power management devices, which are targeted for the following market segments: consumer, telecommunication/networking, and mobile communications, industrial and automotive. Being a total chip solution provider, Giantec Semiconductor's mission is to deliver innovative engineering solutions that add value to our customers' products. Giantec is headquartered in Shanghai, China with worldwide offices in USA, Taiwan, China, and Hong Kong. Visit our web site at www.giantec-semi.com
